Imagine Turning your Building Dept. into a Profit Center

Transition from a Cost Center into reoccurring Revenue Center

Digitize and Tokenize all Building records on Blockchain Technology

No more losing money on Building Record retrievals

Subscription Based Access Fees

Annual/Monthly Membership Fee

Access fee for a specific Property Record

Download/Print fee for a specific Property Record

Why Blockchain for Building Dept Records

1. Govt Agencies are always looking for opportunities to become more efficient and reduce costs/generate income
2. Building Depts. want to have ALL their Property Records online but are afraid of being hacked
3. Municipalities are “Custodians” of Vital Records that must be protected

Benefits for using Blockchain Technology

- ✓ Instant Access to records within seconds by searching Section/Block/Lot or Street Name and Number
- ✓ Confident records are secure and cannot be hacked by using Blockchain Technology
- ✓ Less staff (govt employees) required to retrieve records for the public. Online access to the Building Dept. Property Records
